

THE TECH

VOL. XXVI. No. 7

BOSTON, MASS., WEDNESDAY, OCTOBER 10, 1906

PRICE THREE CENTS

TECHNOLOGY CLUB.

Business Meeting Monday Evening Followed by Interesting Talk by Dr. Allen.

The Technology Club, Monday evening, held its annual meeting. After the business meeting, Dr. Horace N. Allen, former United States minister plenipotentiary to Korea, gave a very interesting talk on that country. He spoke of the great changes, economic, industrial, and political, that had taken place in that country during the past twenty years. The most interesting portion of his short lecture was the pointing out of the vast natural resources of this far East country, and the possibilities there in the engineering line. He spoke of the high standing that Technology men had there, and mentioned especially Walter D. Towusend, '76, who is a merchant in Chemulpo. Dr. Allen first went to Korea as medical missionary. He was appointed, after a number of years residence, to the secretaryship of the legation at Seoul. He was advanced to the position of consul, and later raised in McKinley's administration to minister plenipotentiary. He returned to this country last spring to remain. He brought with him the best single collection of Korean glazed pottery in existence.

In the business meeting before the talk, officers were elected, and routine business run through. The secretary's report contained some interesting information in regard to the present membership of the club. The number of members now in good standing is 602, divided as follows: Corporation, 23; Instructing staff, 69; Graduates and former students, 478; Undergraduates, 32. The members that have been admitted make a total of 33 new members. The decrease in membership has been from 634 to 602, a total of 32. The officers elected were: President, James Flack Norris; Vice-President, Francis Henry Williams, '73; Secretary, Angelo Tilton Heywood, '06; Treasurer, Augustus Herman Gill, '84; To the Governing Council for three years, Arthur Tisdale Bradlee, '88; Howard Lincoln Coburn, '87; Andrew Daniel Fuller, '95; William Elton Mott, '89; Walter Elbridge Piper, '94.

ARCHITECTS TO COMPETE.

The Architectural Society will hold a competition for its inserts in *Technique* '08, open to the members of the society, the prizes to be \$10 for the full page drawing and \$5 for the heading. The first smoker of the society will be held next Monday evening at the Union, and all members of the department are invited to attend. Mr. Walker will probably speak.

'06 MEN PASS EXAMS.

Gerhard, McManus, Sherman, Lynde and Breitzke, all '06, succeeded in passing the examination for the position of assistant engineer on the New York Board of Water Supply. Barnes, also '06, passed the examination for rodman.

Tickets Found.—Two coupon railroad ticket books have been found and are awaiting the owners at the Cage.

TECH FIELD IMPROVED.

New 220-yd. Straightaway and Entrance on North Side of Field.

Tech Field has been greatly improved during the summer, the principal changes being the building of a 220-yd. straightaway track and the erection of a substantial entrance on the north side of the Field. The tennis courts are in good condition and a large number of the matches in the fall tournament of the Tennis Association are being played there.

The 220-yd. track was built by continuing the north side of the old track straight up into the corner, where the start of the 220-yd. dash used to be, a large piece of land having been acquired to allow the building of the track. The 220-yd. races will take place across the Field from the spectators, the finish being opposite the grand-stand, but this slight objection to the position of the track is more than met by the advantages which the straight track affords.

The new gate is of heavy wood, bound together by an iron frame, and is supported by two large brick posts. It is directly opposite the grand-stand, and a low railing has been built around the east end of the track so that spectators can make that short cut to the grand-stand. With the addition of a path for spectators from the new gate to the stand, the field will have received a much-felt need, that every one who has had to walk around to the old gate will appreciate.

First call for track candidates was answered Monday by a very few men, not more than five men, outside of the members of the Freshman and Sophomore relay teams being on the track. No weight men were out. The fall meet is a little over two weeks off and a larger response of candidates is hoped for before that time.

Y. M. C. A.

The Rev. Wm. T. McElveen of the Shawmut Avenue Congregational Church will address the Thursday noon meeting of this week.

Dr. McElveen is well known to Tech men, having given the address of welcome to the churches of Boston both last year and the year prior at the Reception to new men in Tech Union. Dr. McElveen is a cordial and ready speaker and a large attendance is anticipated. The meeting is in Parish Hall of Trinity Church Thursday from 1.30 to 2 P.M.

FRESHMAN FOOTBALL.

The game which was to be played this afternoon between 1910 and Somerville High at Somerville has been cancelled, owing to the fact that so few men have been reporting for practice the past week. Instead, practice will be held as usual at Tech Field and all candidates are expected to be on hand.

The next game will be with Waltham at Waltham on Saturday at 3 P.M.

The Tech Union Lunch exceeded its record attendance by having 183 paying customers on Friday last. Business is still increasing.

SENIOR INJURED.

W. L. Woodward Hit by Revolving Pulley in Mechanical Laboratory.

While at work in the Mechanical Engineering Laboratory on Monday W. L. Woodward, '07, was caught in a revolving pulley. It is understood that he slipped on the floor and his clothes were caught in the pulley which then entered his body in the fleshy part of the back. Fortunately no bones were broken and the injury is not believed to be serious. Mr. Woodward was removed to the hospital and although the doctor has made no definite statement, it is hoped that Mr. Woodward will be able to return to his work in a few weeks.

'09 DEFEATS SOMERVILLE HIGH.

The Sophomore Football Team defeated Somerville High Second Team by a score of 5 to 4 last Monday afternoon. Eaton made the touchdown.

The game can hardly be taken as indicative of '09 strength, as the halves were short, and the coaches were allowed on the field. More effort was made to get the team into shape than to run up a high score. The line-up follows:

M. I. T., '09.	SOMERVILLE SECOND.
Finney, l.e.	r.e., Elliott
M. Fletcher, l.t.	r.t., Merrill
Sherman, l.g.	r.g., Hoyt
Dow, c.	c., Gustin
Critchett, r.g.	l.g., Russell
Pope, r.t.	l.t. Commings
C. Fletcher, r.e.	l.e., Garland
Sharpe, q.b.	g.b., McDonald
Moses, l.h.b.	r.l.h.b., McLaughlin
Cook, r.h.b.	l.h.b., McNeil
Eaton, f.b.	f.b., Feely

Score—M. I. T., '09, 5. Somerville, 4. Touchdown—Cook. Umpire—Twohig, Referee—Graves. Linesmen—Ireland, Pauly. Timer—Freeman. Time—15 and 10 minute halves.

COMMUNICATION.

The Editors do not hold themselves responsible for opinions expressed by correspondents.

TO THE EDITOR OF THE TECH:

Dear Sir: May I, through your columns, call the fellows' attention to the first meeting of the Civic Club, on Friday evening? I think most of the wide awake men acknowledge the obligation of every educated man to serve his community with a little more intelligence and active willingness than does the ordinary perfunctory and indifferent voter. Intelligence and willingness in that service are small enough expressions of our gratitude for the sacrifices of our own people or the generosity of donors which make possible for us four years' advantage over the other fellows in the state.

The talks before the Civic Club help a man toward such intelligence, and the discussions among the members give him a chance—that no academic course affords—of sharpening his intelligence in the friction of real argument and of acquiring some natural ease and force in straight talk among his fellows.

I hope these wide awake men from all the classes will acknowledge both the obligation and the privilege the Civic Club very pleasantly affords them.

Sincerely,

H. L. SEAUER.

CALENDAR.

WEDNESDAY, OCTOBER 10.

1.00 P.M. Freshman Class Meeting at Huntington Hall.
2.45 P.M. 1909 Football Team meet on Rogers steps.
4.00 P.M. Cross-Country Run from Tech Field.
4.00 P.M. Football, Sophomores vs. Roxbury High at Franklin Field.
4.00 P.M. Football, 1910 vs. Somerville High, canceled.
THURSDAY, OCTOBER 11.
1.00 P.M. Junior Class Meeting in Huntington Hall.
1.30 P.M. Y. M. C. A. Meeting in Parish Hall, Trinity Church.
4.00 P.M. Banjo Club Rehearsal in 33 Rogers.
8.00 P.M. Civic Club Meeting in 16 Rogers.

FACULTY NOTICES.

First Year, Section II.—The Chemical Recitation is transferred from Wednesday at 12 to Friday at 12.

Second Year.—The Thursday exercises in Surveying for Courses I and III will begin at 11, instead of at 10 according to the tabular view.

Third Year Option.—The class in 18th Century Literature will meet Monday at 10 and Friday at 4, instead of Saturday at 12.

Fourth Year.—Assignment of rooms for Machine Design, Course X, Op. 5: Tuesday, 10-11, 33 Eng. A.; Tuesday, 2-3, 33 Eng. A.; Thursday, 10-11, 33 Eng. A.; Thursday, 2-3, 33 Eng. A.

NOTICES.

1907.—The Senior nominations have been extended until Saturday, Oct. 13, at 1 o'clock.

1909.—The Football Team will meet on Rogers steps at 2.45 this afternoon for the Roxbury game.

Freshman Class Meeting.—There will be a meeting of the Freshman class Wednesday at 1 P.M. in Huntington Hall.

Game Cancelled.—The football game between 1910 and Somerville High scheduled for Wednesday has been cancelled.

Electrical Engineering Society.—There will be a business meeting of the Electrical Engineering Society Saturday at 7.30 P.M.

Juniors.—There will be a meeting of the Junior Class Thursday at 1 o'clock, immediately after the Political Economy lecture.

Sophomores.—Nominations for officers of the class of 1909 must be signed by ten members, and should be left at the Cage for the 1909 Election Committee. Nominations will be received up to 4 P.M. Monday, Oct. 15.

Civic Club.—The Technology Civic Club will hold its opening meeting for this year in 16 Rogers at 8 P.M. Friday, Oct. 12. The subject for discussion will be: "Resolved that Municipal Ownership is both possible and advisable in the United States." All members are urged to be present and new men, interested in this line of work, will be welcome.

THE TECH

Published every Monday, Wednesday, and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Entered as second-class matter October 6, 1904, at the post office at Boston, Mass., under the Act of Congress of March 3, 1879.

In charge of this issue: L. H. KING, 1909.

Wednesday, October 10, 1906.

President Eliot of Harvard spoke on "The Elements of Success in the Engineering Profession." We would like to hear from Mr. Rand on "The Elements of Success in Running a Lunch Room."

In speaking at one of the class meetings a few days ago, Dean Burton expressed the general sentiment of the Institute by saying that the Faculty tries to treat the students as men, and the students as a rule prefer to be so treated. In but a very few cases is this untrue, and the result obtained is correspondingly satisfactory. A few recent events, however, lead one to be rather skeptical as to whether this trust can be reposed in everyone at the Institute.

In one of the second year drawing rooms it is customary for the men while at work to leave their coats in the coat room. One afternoon last week it was found that someone had visited the coat pockets of several men and relieved them of numerous valuables, including money and personal papers. The whole amounted to quite a considerable sum. This theft was committed in broad daylight and obviously by someone connected with the Institute. It remains to be seen who that someone was, whether of the janitor force or from among the student body. The former seems very improbable, although not unprecedented. Who then is violating the trust we bear in common to the Faculty?

If THE TECH may quote again from Dean Burton, Tech differs from the classical colleges in possessing a greater seriousness, resulting from the fact that the men have made up their minds as to their career. Is this the career to which some man has made up his mind? Doubtless the victims are to be criticized for their careless-

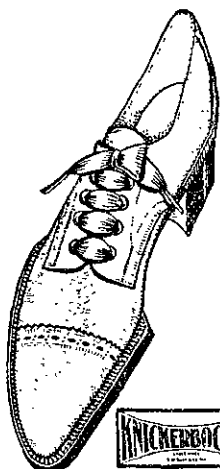

ness in leaving valuables in their coats, but that does not excuse the culprit one particle. He had much better have never come to the Institute, for it is no place for such a man. We boast of no "honor system," nor profess to be beyond reproach, but each man settles the question of honor for himself. If the one who committed this underhanded deed withdraws from Technology as soon and as quietly as he can he will be doing the kindest deed possible to the Institute and to himself. Technology with her motto, "Mens et Manus," strives to make the man, as well as the engineer or scientist.

The season for shipping eggs and poultry to Cuba has opened. Cuba has never been able to raise enough to supply her own wants. Better raise more poultry and less cane.

The Boston public evidently likes "The Student King," at the Tremont Theatre, which is now in the second week of a highly successful four weeks engagement. It is some time since the music lovers of Boston have been so unanimous in their praise of a new composition as has been the case of this delightful romantic opera. Hailed as the most pretentious production in this line in a long time, it has been drawing large audiences, and has been received with unbounded enthusiasm. A better singing organization has never been heard in light opera in Boston. The production as regards investiture is exceedingly elaborate. The opera is in three acts, and each is a gem of beauty. A most unusual feature, which has received much favorable comment, is the male chorus of thirty trained voices. This is, without exception, one of the most successful innovations the light opera stage has ever had, for it is the first time that the percent-

age of male voices in an organization of this kind has been so high. The voices were selected with the greatest care, and the rousing choruses are sung in a manner that fairly lifts the audience to their feet. Of course there is always a chorus of girls, and very pretty girls they are too. But if they are beautiful of face and figure, they are also beautiful of voice. One of the pleasant surprises of the cast has been Miss Lina Abarbanel, the grand opero singer who has forsaken the grand for the lyric field.

HOLLIS STREET THEATRE.

Sam Benard has everything his own way at the Hollis Street Theatre, and the second week of "The Rich Mr. Hoggendheimer" has opened with the greatest of applause and enthusiasm for the jolly comedian who has scored so many successes here in the past, and who is now at his best in this new production.

Fifty Vincennes (Ind.) university students, many of them young women, visited the lodgings of the Faculty late one night recently, forced them to dress and to accompany them to the chapel. The crowd called themselves the "Faculty guards," and lined up every member of the Faculty except President Ellis, who happened not to be at home. When the professors had been sent to the platform, one of the girl students explained that the students wanted promises that poor lessons would be excused on days following entertainments and that more holidays would be allowed. The members of the Faculty promised due consideration of the demands, and after some speaking by the students and a parting word of warning to the Faculty they were permitted to go.

With a view to determine how much America's educational system has helped establish this country in its commercial and industrial position, Alfred Mosley, the millionaire London publisher and philanthropist, will bring a large party of educators to this country this Fall. He will pay all expenses of the trip, which will keep them in the United States three or four months, visiting and studying the schools in the large cities.

Dr. Theodore Hough, professor of biology and director of science in Simmons College, has been elected by the board of visitors of the University of Virginia to fill the chair of physiology at that institution. Dr. Hough will fill the chair held by Dr. Paul B. Barringer.
